

# NENIN 2016

## AOC

Pomerol

## TERROIR

The vineyards of Château Né Nin are all in one piece, with the exception of one plot. The vines dedicated to the grand vin of Château Né Nin are planted on the largest clay and gravel terroirs of the Pomerol plateau, covering about one third of the total vineyard. In the context of the Pomerol appellation, where it is rare for an estate to exceed 10 hectares, Château Né Nin represents a major surface: up to 32 hectares of vines in production. Consequently, its terroir includes all the diversity of soils that characterise Pomerol. It is mainly made up of Oligocene deposits covered with gravelly alluvial formations of the Dordogne; siliceous clays and gravels, quartz, granites, iron dross as well as basalt pebbles.
