Exceptional terroir Pierre FORTHON bequeathed his property to the Pères Feuillants, who, lived up to their reputation, selecting the plots for vines 2 centuries before 1855. Since then, there have been only 4 owners in 400 years.	A history set in stone. This date marks the end of the work undertaken by the Pères Feuillants and is inscribed on the walls of the Château and on the label.	Petit Verdot already in the vineyard This emblematic grape variety was already a distinctive element of the Meyney vineyard. It currently represents 15% of the total area of vines. The 76 ha in one piece constituted the domain of Meyney at the time of its creation.	The Crédit Agricole Group acquires Château Meyney.	Commitment to the Environmental Management System.	100% organic management First year in which the vineyard is managed with 100% organic products (except for treatment of flavescence dorée and devitalization).	1st year of organic conversion	1st certified organic vintage.
