

FUGUE DE NENIN

2023

SITE

Nénin's 30-hectare single vineyard dominates the south-western slopes of the iconic Pomerol plateau. It has been under vine since long before the French Revolution, delivering wines renowned for their intense fragrance.

SOILS

Beneath fine gravel, dense clay, and ancient sands enriched with the alluvial deposits of the Dordogne River, lies a diverse patchwork of soils that flow into one another, following the gentle incline of our slope. Silicious clay meets with quartz, granite, basalt pebbles and iron deposits.

Blend

93% Merlot,
7% Cabernet Franc

Alcohol degree

13 ABV

Harvest period

From 13rd to 28th September 2023

Total acidity

3,10gH₂SO₄/l
