Yield 30 hectolitres per hectare.

Production 85 000 bottles.

2021 Analysis Degree 12,90% - AT 3,45 - pH 3,69 - IPT 69

Vintage note

« Patience and reactivity were necessary to ensure a nice 2021 vintage at Château Fourcas Dupré. Beginning of summer was a little bit cool and humid, it was necessary to properly manage all the operations in the vineyard on time to preserve our perfect sanitary conditions. The sun came out at the end of August and the beginning of September, and the Merlots quickly showed themselves to be attractive. The Cabernet Sauvignons reached perfect ripeness at the beginning of October, and we get the opportunity to wait to pick them up full and rich.

The blend develops a predominance of Cabernet Sauvignon which gives the wine a fruity and structuring energy. The Merlot give a nice envelope at the start and the center of the mouth. Like the 2020 vintage, the low yield leads to a natural concentration."
