

DUHART-MILON 2025, GRAVES, ALL IN!

It was right in the heart of the vineyard that Louis redesigned each plot of Duhart-Milon. He had his own recipe: adapting the direction of the rows and the density, testing rootstocks, pruning differently and adapting the plant cover according to the conditions of each plot.

In 2025, this work paid off, especially for our gravelly soils. The grapes that entered the cellars tasted of good fortune. The kind that is well managed, that happily surprises us and where we can't wait to see what happens next.

From August onwards, our white grapes, especially our Sémillon, gave us a leg up to achieve excellent ripeness.

A taste for risk? Not this year. By going all in in 2025 at Duhart, whether white or red, we are serene. We are confident.

Red

Blend:

73% Cabernet-Sauvignon
27% Merlot

Budburst: 6th April

Mid-Flowering: 30th May

Mid-Véraison: 1st August
