

With this pencil made of seeds,
write down all of your ideas. If you
are short of ideas, plant it in the
ground and give it water. The seeds
will germinate in a few weeks.
Another life begins.

CHÂTEAU LANGOIA BARTON • CHÂTEAU LÉOVILLE BARTON

*Our
Sustainable
Actions*

12 hectares of vines without the use of synthetic products.

80 hectares of meadows and woods border our vineyards.

No Herbicides, we plough entirely.

Use of Organic Matter

75% of which comes from composting our residues (vine shoots, grass clippings, prunings, etc...).

Natural or Light Use of Pesticides

- Sexual confusion tags protecting the vines against grape-worm without insecticides.
- No CMR products.
- Light treatments on the golden 'flavescence' (a bacterial disease transmitted by leafhoppers to the vine), without preventive treatments.

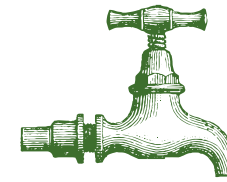

Protect our Biodiversity

- Harvests done by hand.
- Use of biodegradable and compostable fasteners for the vines.
- Use of detoxifying plants.
- The period of pollination by the insects is respected.

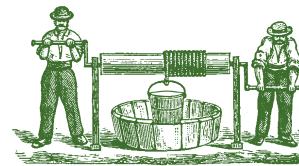

Certified in 'High Environmental Standards' LEVEL 3

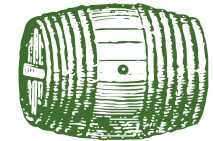

Safe Disposal of

Phytosanitary Products

Conservation of Water

Sustainable Forests

- 100% of our vats and barrels are made of French oak produced by sustainably managed forests (PEFC label).
- All of our corks are natural and come from the FSC forests.

Supports our Local Community

- The embroidery on our workclothes is done in Blanquefort (33).
- Our cow manure comes from a farmer in Pauillac.

Zero Waste Initiatives

- Overall sorting and recycling.
- All of our cardboard packaging is 100% recycleage.
