

Château L'Angevin « Plume d'Ange »

Bordeaux Rouge

2020

History

The history of Château l'Angevin "Plume d'Ange" is only the logical continuation of an eco-responsible approach initiated by the vineyards Quebec a few years ago. Indeed, the philosophy of this vineyard has always been to develop authentic and true wines, giving a great care to the respect of nature, grapes & wine.

Thus, Château l'Angevin teams do their best to express the typical soil of the property, using traditional methods. The action of men is only there to sublimate what Nature offers! This results in a special wine "Plume d'Ange", with no Added Sulfites. In other words, an offbeat and decomplexed Bordeaux, with a burgundy styled bottle. This wine brings a fresh air to the appellation.
