### BLEND

49% merlot

51% cabernet sauvignon

YIELD 50 HI/Ha  
ALCOHOL 14% vol

### THE VINTAGE

2019 is a very fine vintage, a solar one! A dry and milder-than-average winter gave way to a rainy spring with cool nights. Bud burst and flowering therefore came relatively early. The vineyard remained in a very good state of health. As in 2016 and 2018, the summer was characterised by high temperatures, with a few scattered showers (two redeeming spells of rain in July and August). It is a vintage of the climate, as much as of the terroir. The grapes are excellent and with a richness that we would like to find every year...

### THE HISTORY

The second wine, Prélude à Grand-Puy Ducasse, was created in 1955, on the occasion of the 100th anniversary of the estate's classification. Château Grand-Puy Ducasse's story began when Arnaud Ducasse bought a "modest" house on the banks of the river in Pauillac in 1675. Little did he know that it would become a large estate that would remain in his family for almost three centuries. Pierre Ducasse, a lawyer with a passion for wine, considerably extended the land over three parishes - Pauillac, Saint-Lambert and Saint-Sauveur - and three seigneuries: Lafite, Latour and Beychevelle. In 1820, his son built the Château's winery facing the Gironde estuary. At the time, this was a daring decision. Since then, Grand-Puy Ducasse has been the only Château in the area to vinify its grapes in the very heart of Pauillac's town. In 1855, the property was included in the prestigious ranking of classified growths; with 40 hectares of vines spread over 11 different types of soil, its vineyard can be considered as the most representative of the diversity of Pauillac's terroirs. Since 2004, CA Grands Crus, a subsidiary of the Crédit Agricole Group, has embarked on an ambitious optimization plan. The subsequent construction of a new vat room and barrel storage facilities is to complete the "Renaissance" large scale project. The guiding principle of Château Grand-Puy Ducasse and its teams led by Anne Le Naour and Benjamin Cassoulet is to keep pushing rigorous standards even further.
