

TECHNICAL SHEET VINTAGE 2023

The 2023 harvest begins early, on September 12th and "always in summer" (as in 2022), with the Merlots.

One year follows another, and sometimes they look the same. Last year, we started on September 8th. This is another early year. In fact, we generally harvest towards the end of September.

Yields are 46 hl/ha, which is quite a change from the very low harvest of 2022.

The harvest was rather long, lasting 18 days, with a break of a few days between the Cabernet-Francs - which followed the Petit-Verdets - and the Cabernet-Sauvignons.

We take advantage of a beautiful week to complete the harvest with the picking of the Cabernet-Sauvignons, starting on September 26th, at the beginning of autumn, and finishing, still in September, on the 29th.

A well-balanced vintage with good acidity, giving it freshness and longevity.

HARVEST
du 12 au 29 septembre 2023
